Electrical Heat Gun

AHGE

Description

AHGE1910/AHGE1920 are powerful electronically controlled hot air guns with temperature and airflow control for frequent users. The units are professional high-spec tools for virtually any hot air application.

Features

- Airflow rate adjustable in three stages
- Electronic temperature control
- 2000 W
- Hand held and self resting on soft stand
- Continuously adjustable temperature from 80°C to 600°C
- Internal thermal cut-out to prevent over heating

Settings

- Large setting wheel for adjusting temperature in 9 steps
- Blower controlled by 3 speed operating switch
- Cool air stage for rapid cooling on nozzle change

Applications

- Shrinking cable sleeves
- Welding plastics
- Soldering

Technical Data

Properties	Typical Values		
Dimensions (l x w x h) mm	260 x 90 x 205		
Output (W)	2000		
Voltage	230 – 240 V, 50 - 60 Hz		
Stage	1	2	3
Airflow (l/min)	150	150 - 300	300 - 500
Temperature (°C)	80	80 to 600	
Temperature Setting	Variable in 9 increments, thumbwheel		
Weight (g)	850
