

VISION

To be the leading manufacturer and supplier of Airshrink, Heatshrink, Medium, Low Voltage Joints, Terminations, accessories and related products in Southern Africa.

MISSION

To provide engineering solutions through technical expertise, attention to detail, service and quality, so as to achieve customer satisfaction.

We will strive to maintain a flexible and dynamic approach to both manufacturing and management philosophies, so as to continually adapt to an ever changing business environment.

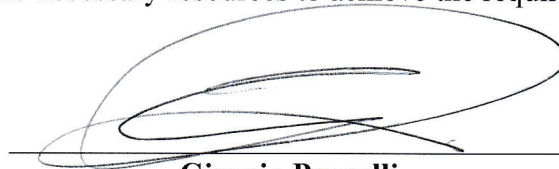

Our aim is to aggressively pursue real growth thereby providing security and continuity for all our stakeholders.

POLICY

We, the management and employees of Airshrink SA, are committed to our products and services meeting their intended purposes, performance criteria and our customers' highest expectations according to ethical business practices.

This commitment is achieved by operating an effective Management System that:

- Complies with the requirements of ISO 9001
- Provides a framework for establishing measurable objectives and reviewing these for continual improvement of activities, products and services beyond legal requirements,
- Supplies customers with quality products and services, through minimizing the risk of non-conformities,
- Prevents pollution and protects employees and the community from occupational health and safety risks,
- Pro-actively identify and address concerns about our products and operations,
- Identify and comply with relevant legislative requirements, as well as the requirements of our customers and stakeholders,
- Equip employees with the necessary resources to achieve the requirements of this Policy,

Giorgio Pauselli
